The Expanded FAR Matrix Toolkit

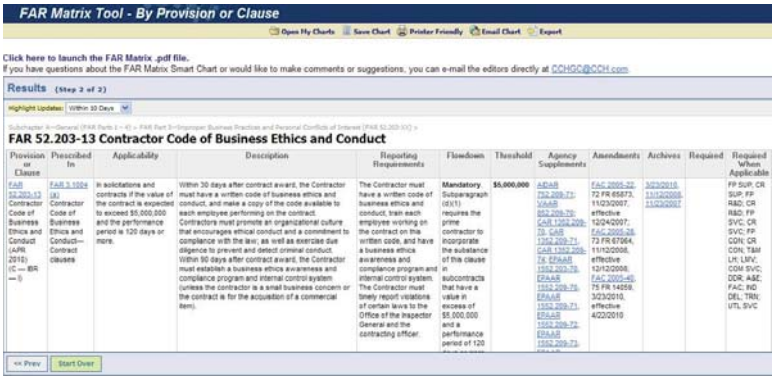
Contract clause and solicitation provision compliance information, made easier than ever before.

The *Expanded FAR Matrix Toolkit* streamlines the cumbersome process of using Federal Acquisition Regulation Part 52.301, enabling you to quickly understand, document, and report the compliance issues related to every FAR solicitation provision and contract clause.

Focus only on what applies to your contract—
and save time, money, and compliance integrity.

Developed by the trusted experts at Wolters Kluwer Law & Business, the *Expanded FAR Matrix Toolkit* provides two convenient approaches so you can analyze each of your contracts by provision or clause, or by contract type.

Simply choose the specific sections of interest to you, click "next," and the *Expanded FAR Matrix Toolkit* dynamically produces an organized chart of current, comprehensive information you can save, print, and export in minutes.



Try it today! Visit theFARmatrix.com or contact a representative at 800-449-6435.

FAR Matrix features include:

- **NEW!** Clear threshold indicators, including dollar amounts, simplified acquisition threshold, CAS applicability, and more
- **EXPANDED!** Links to the full text of provisions and clauses from every relevant agency supplement
- A link to the full text of each solicitation provision or contract clause
- A link to the FAR reference and title under which each provision or clause is prescribed for inclusion
- The applicability of each provision or clause within the scope of the contract, with links to FAR references
- "Plain English" explanations of each provision or clause
- Reporting requirements and direct links to associated forms
- Associated subcontract flowdown requirements
- Links to FAC amendments and archived provisions and clauses to produce a historical framework
